

# Video Management Unit

## Features

- Real time DVR live monitoring
- Various screen division mode (single, quad, 9-split, 16-split )
- Remote DVR search and playback function.
- Fast forward and reverse playback
- HDMI & VGA output
- Up to 16 DVRs list management
- VMU can be used for 4096 channels video matrix system using free VMC software.
- Compact size (134mm\*107mm\*50mm )
- Low power consumption (0.3A@12V)

## Application

- PVM (Public view monitoring)
- Video wall
- Multi site monitoring
- Home video monitoring
- Video matrix system

## ■ Specification

Item	VMU-100
Decoding performance	16ch @CIF, 8ch @960H
Display resolution	1920*1080p (HDMI, VGA)
Network	10/100 Base-T
USB	Two
RS-485	One
IR remote control	Available
Power	12V/0.5A
Dimension	134*107*50 ( W*D*H)
Weight	0.5Kg
Operating Temperature	0°C ~ 40°C

<Front>

<Rear>

## ■ PC based system vs. VMU system

	PC Based system	VMU system
Cost	High	Low
System space	Large	small
Installation	Difficult	Easy
Stability	Low	High
Power consumption	More than 50W	Less than 5W
Stackable	Difficult & High cost	Easy & Low cost
