

# **Omni Series - Omni30**

### All Weather Outdoor Multi-tech Smart Standalone Terminal

- Multi-Biometric technology combining palm and face authentication
- IP66 water & dustproof protection rating
- Supports 125 kHz and 13.56 MHz frequency credentials
- Supports multiple mount types (Single gang/ European/ Asian box)

#### Modern Aesthetic Design

The build of the Omni30 blends a high quality metal enclosure with a tempered glass panel. The elegant design fits perfectly into any usage scenario and its sleek design brings a practical and reliable experience to users.

#### Industry-Leading Design and User Experience

The Omni30 provides an improved user experience with a 5" high resolution touchscreen and intuitive UI design. Using our advanced algorithms, users can get the best verification experience.

Palm authentication distance range: 7" - 15.7" (18cm - 40cm) Face authentication distance range: 15.7"- 47.2" (40cm - 120cm)

#### IP66 Water & Dustproof Protection Rating

Certified IP66 water & dustproof levels represent that the readers can withstand dust, dirt, sand, and are resistant to violent surf impact or strong winds and

#### Variable Input Voltage

The device is compatible with 12V input voltages.

#### **Advanced Security**

Secure communication: OSDP(V2.2) over RS485 communication between the OmniAC30 and access control panels. Using AES-128 encryption standards ensures the highest levels of data protection & security.

## Outdoor Rated for Variable Environments

IP66 Weatherproof rating - built to withstand freezing cold winters, heavy rains and dry/hot summers.

-20°C to 60°C/ -4°F - 140°F operating temperature enables operation even under the most severe weather conditions.

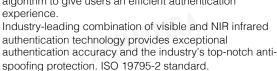

#### Supports Multi-Card Types

Supports 125 kHz and 13.56 MHz frequency credentials. Supports various card types including EM, IC Card, HID Prox, HID iCLASS, DESFire and

#### Unrivaled Palm and Face Authentication Performance

ARMATURA's Multi-Biometric technology combines palm and face authentication with our unique deep learning algorithm to give users an efficient authentication

#### Multi-Factor Authentication Capability

Offering credential options of palm, face, physical cards and QR codes.

\*IC Card, Desfire, HID Prox, iClass, SEOS, etc.

\*Integrate advanced multiple biometric authentication methods such as palm and face.

\*QR code scanning for visitors & employees.

\*PIN code option.

#### Touchless Solution for New standards of the Post-pandemic World

The Omni30 meets the needs of the contactless world with features like remote user enrollment, palm, mask detection and face authentication for users with or without masks. Our Palm/ Face/ Card/ QR code authentication technology supports contactless authentication.

# Video Intercom (Coming Soon)

The Omn30 supports video intercom function suitable for most visitor scenarios. Two-way audio streaming with echo and noise cancellation lets you easily communicate with visitors.

#### Robust design & form factor makes this device easy to install. PoE option allows for minimal use of cabling and lowers the cost of installation. OmniAC30 supports multiple mount types (Single gang/ European/ Asian box) to meet most scenarios worldwide. Mounting accessories for speedgates are also available.

#### Better Images, Faster Authentication

This device supports palm/ face tracking, which can more intelligently capture the user's biometrics and avoid the user's biometric from continuing to be compared after verifying. At the same time, the plam/ face AE function enables the device to obtain higher quality images which improves the authentication accuracy.
